TEMPO

AN AI-POWERED MARKETING CO-PILOT

PRESENTED BY :

Galiah Badokhon Reman Almarri Mays Almousa

SAUDI MARKETERS JUGGLE TOOLS BUILT FOR SOMEONE ELSE

THE PROBLEM

Snapchat, X, Instagram and Google Search Console are checked one by one, AI drafts are rewritten into Saudi Arabic by hand, and reports are built in spreadsheets.

ROOT CAUSE

Existing tools are designed for **Western markets**: English-first AI, weak or no Snapchat support, and no single view of social and website results.

WHY AN AUTOMATED SOLUTION

The lost time is repetitive data movement and translation, work that software can collect, draft and report automatically.

4
Separate platforms for one weekly overview

4 h
Week lost rewriting AI output into Saudi dialect

6 h
A week spent compiling reports by hand

EXISTING TOOLS COVER PARTS OF THE JOB, NOT ALL OF IT

Feature	Hootsuite	Buffer	Sprout Social	Jasper AI	Tempo
Price (SAR / month)	370	56	934	184	189
Entry plan ≤ SAR 200	No	Yes	No	Yes	Yes
Arabic / English AI content	No	No	Yes	Yes	Yes
Scheduling & calendar	Yes	Yes	Yes	No	Yes
Saudi-native insights	No	No	No	No	Yes

WANT AN ALL-IN-ONE DASHBOARD

68%

Gap: no tool combines Saudi-dialect AI, Saudi-platform scheduling and website analytics at an SME price.

Feasible on conditions: MVP-first launch; break-even at about 600 paying accounts.

INTRODUCING TEMPO

ONE BILINGUAL WORKFLOW INSTEAD OF FOUR TOOLS

Plan & draft: AI Content Studio writes 3 variants from a short brief, in Arabic, English or both.

Schedule: One calendar publishes to Snapchat, X and Instagram at peak hours

Measure: A unified dashboard shows social metrics next to Google Search Console data, with alerts.

Report: A weekly bilingual PDF report is generated automatically, with client branding.

For agencies: a separate workspace per client and role-based team access (Owner, Admin, Editor, Viewer), all from one login

HOW TEMPO CREATES AND CAPTURES VALUE

Key partners

Meta, X, Snap & Google APIs
LLM provider
Saudi-region cloud host Incubators & creator communities

Key activties

Platform development
Saudi-dialect AI tuning

Key resources

Founding team
AI layer & API access

Value proposition

AI content in Saudi dialect
One calendar for Snapchat, X, Instagram
Weekly bilingual report Priced in SAR

Relationships

Self-service + free trial
AR/EN support

Channels

Website sign-up
Social, workshops, referrals

Customer segments

Solo marketers & SMEs
Boutique agencies
Freelance content creators

Cost structure

Salaries · AI usage · cloud hosting · marketing · security testing

Cost structure

Monthly subscriptions: Free trial · Starter SAR 189 · Agency SAR 499 (proposed)

TWO PRIMARY USERS SHAPE EVERY REQUIREMENT

Nora Al-Shamrani, 28

Solo marketer · e-commerce fashion brand, Riyadh

Goal: run Snapchat, X and Instagram from one bilingual dashboard; cut weekly reporting from 6 hours to under 1.

Pain: switches between 4 platforms; rewrites English AI copy into Saudi dialect; USD pricing.

Needs: Saudi-dialect AI drafts, one-click scheduling, automatic Arabic report, mobile approvals.

Khalid Al-Otaibi, 35

Agency account manager · 8 clients, Jeddah

Goal: manage every client from one dashboard and send branded bilingual reports each Monday.

Pain: his team spends 12+ hours a week compiling data; AI tools write formal Arabic.

Needs: client workspaces, team roles, branded PDF export, social+ website analytics.

HOW WE GATHERED REQUIREMENTS

User Stories

As a solo marketer, I want captions in Saudi dialect so that I reach my audience without rewriting.

As a solo marketer, I want social and website analytics in one Arabic dashboard so that I stop logging into four platforms.

As an agency manager, I want to switch client workspaces without logging out so that I save context-switching time.

As an agency manager, I want branded bilingual PDF reports so that a client report takes under 5 minutes, not 3 hours.

Methods

Review analysis of competitors on App Store, Google Play and G2

Personas & scenarios mapped to features with priorities

Peer review and a consistency checklist across all artifacts

WHAT THE SYSTEM SHALL DO

A Accounts & workspaces

- **FR-A02** Connect Instagram, X, Snapchat and Search Console via OAuth 2.0
- **FR-A03** Create client workspaces and switch without logging out
- **FR-A04** Role-based access: Owner, Admin, Editor, Viewer

B AI content & scheduling

- **FR-B01** Generate up to 3 variants in Arabic, English or both
- **FR-B04** Edit any variant in-line before scheduling
- **FR-B05** Schedule posts to Instagram, X and Snapchat in Saudi time

C Unified analytics

- **FR-C01** Show reach, engagement and follower growth in one dashboard
- **FR-C05** Alert when a metric drops more than 20% week-over- week
- **FR-C06** Show Search Console data beside social metrics

D AI content & scheduling

- **FR-D02** Reports in Arabic (RTL), English (LTR) or both
- **FR-D03** Apply the client's logo and brand colours
- **FR-D05** Download as PDF or share via a 7-day secure link

MEASURABLE QUALITY TARGETS

3 s
Dashboard loads all metrics
NFR-01 · Performance

10 s
AI returns 3 content variants
NFR-02 · Performance

99.5 %
Uptime in Saudi peak hours
NFR-03 · Availability

AES-256
OAuth tokens encrypted; HTTPS only
NFR-04 · Security

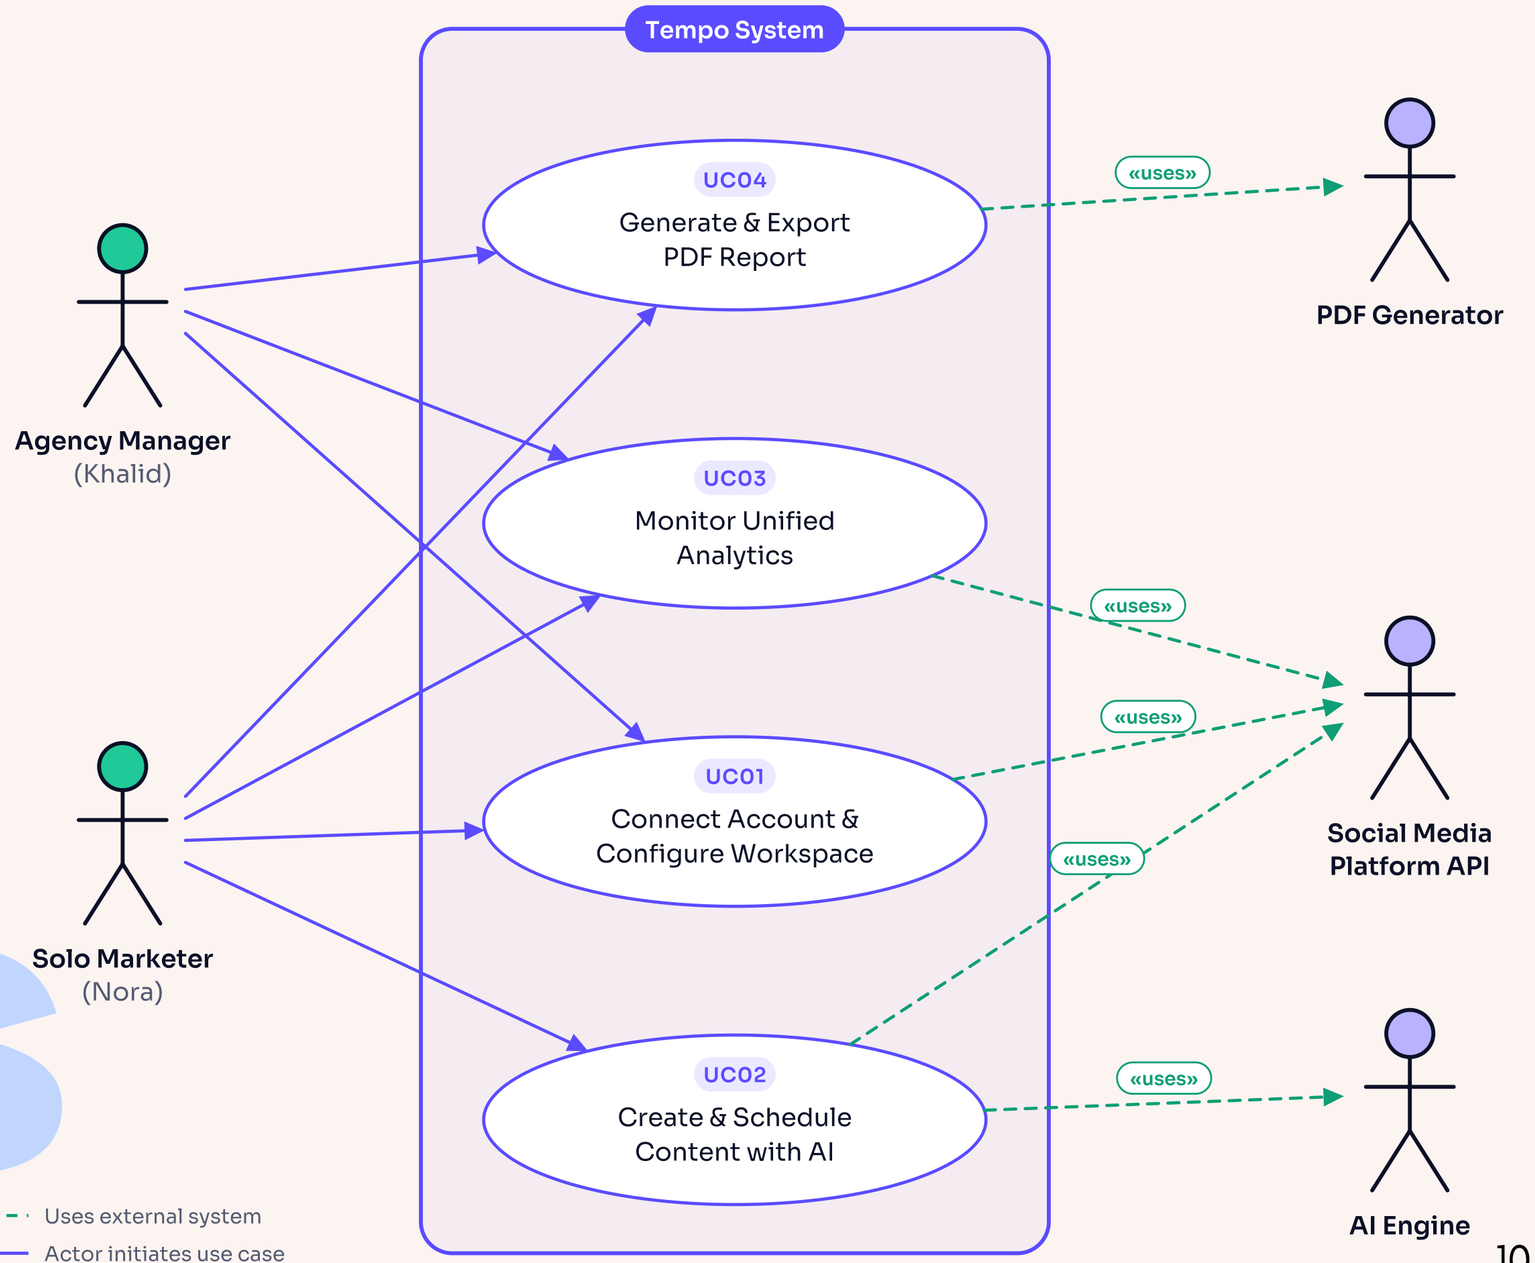

PDPL
Saudi-region data; deleted within 30 days on request
NFR-06 · Privacy

10 min.
From sign-up to first AI suggestion
NFR-08 · Usability

full RTL/LTR support on every screen (NFR-07) · Saudi time, SAR and Hijri/Gregorian defaults (NFR-09)
· 5,000 concurrent users (NFR-10) · swappable LLM provider (NFR-11)

FOUR CORE USE CASES

Tempo – System Use Case Diagram

SYSTEM SCOPE AND DATA FLOWS

WHERE WE ARE AND WHO DOES WHAT

Weeks 1-3: Galiah Badokhon Weeks 4-6: Reman Almarri

SDGS AND STRATEGRY 2030

- **SDG 8**: Supports economic growth & digital jobs
- **SDG 9**: Local AI-powered innovation
- **SDG 10**: Affordable tools for SMEs & freelancers
- **SDG 17**: Connects Saudi businesses globally

- **Digital Economy**: Grows Saudi digital GDP contribution
- **SME Empowerment**: Tools built for small businesses
- **Data Sovereignty**: Data stored in AWS KSA (PDPL compliant)
- **Local Entrepreneurship**: Saudi-built product
